

THE POST.

LEBANON, KY.

Wednesday Morning, Sep. 20, 1854

Know Nothingism.

It has always been our policy, whenever we see the actions of any political party, to refrain from any expression, even when those actions did not coincide with our own peculiar views,—that is when those actions have some shadow of tendency towards the perpetuity and general welfare of our glorious Union. But there is a seemingly powerful party which has sprung up within the past few months, which we cannot pass by, as a public journalist, without raising our feeble voice in condemnation. We say seemingly, because, in the first place, we give the mass of American citizens credit for more magnanimity, justice, and foresight, than is to be found among the bigoted lawless gang which form the body of the Know Nothing party; and in the second place, it is only in the larger cities and towns where this national excrement has filled the moral air with its offensive odor. The honest, sterling yeomanry of this glorious country—"the bone and sinew of the land," are not to be led off by every Will-o-the-wisp which appears in the political horizon, no matter how many broken down would-be Statesmen and great men direct them to view its beauties.

The Know Nothing party have selected a most appropriate name—for they have clearly shown themselves, both by word and deed, to be most consummately ignorant both of the rights of their fellow-man, and of the letter and spirit of our venerated Constitution. We shall endeavor to prove our assertion in as short a space as possible.

The rights of every man in these United States are considered sacred; whether he claims a foreign country for his birth place, or was born under the immediate protection of the stars and stripes. Are these rights and privileges held sacred by this party? We answer, emphatically, No! The property of foreigners is destroyed, they are maltreated and abused, and if they dare, like the worm, to turn upon the heel that crushes them, the press teems from Maine to Georgia with "More Irish riots!" and "foreign outrages!"

The Constitution declares that every foreigner who declares his intention to become a citizen of the United States, and remains thereafter shall, by taking out his naturalization papers, become a bona fide citizen, and be entitled to all the rights and privileges of a citizen. Does this party seem to know or recognize this provision? Most assuredly not.

And lastly, the Constitution guarantees to every man, be he foreigner or native, the right to worship God according to the dictates of his own conscience. Does this lawless mob, know or recognize this glorious privilege? Again we answer, No! They may deny the charge as much as they please, but "actions speak louder than words."

How many mobs has there occurred in the East, from the burning of the Ursuline convent, down to the present day, where the foreigners and natives were the contending parties, that the nucleus of their destructive propensity has not been a Catholic Church? and their rallying cry "Down with Popery!" Witness the late riot in Newark. Where a drunken vagabond drew a revolver and shot in at the windows, and then declared that some one was shooting out of the church. This was a signal for a general rush. The mob burst the doors open and found two old women at their prayers and a third sweeping the floor! Did this satisfy this chivalrous and patriotic band of Americans (but not well not polite that name by mentioning it in such connection.) No! they went to work and completely "gutted" the church. Were they satisfied now? No! they defiled off, with their bosoms swelling with proud emotions at the glorious victory they had achieved; and after passing round a square or so, returned by the deserted church. Here they saw a crowd gathered looking upon the destruction. As they passed, a man by the name of McCarthy expressed the opinion that it was an outrage; whereupon they shot him dead in his track. Not one single show of an attack was even then exhibited by the opposite party. And yet, there comes from the press accounts of this self-same transaction, headed in flaming capitals "Another Irish riot!" "A peaceful procession of citizens fired on from a Catholic Church!" &c. It is the accusation is false that this is an anti-Catholic movement; pray inform us why it is that a Catholic Clergyman cannot now walk the streets of even our Western cities free from insult?

The main portion of the Know Nothing Party seem to be composed of the mobocracy, the vermin which wallow in the mire and enact the part of bully in the lawless houses of those cities where those lawless mobs are so numerous. I say that

honest, upright and right-thinking Americans, no matter what their peculiar views may be, were concerned in them, would be preposterous in the extreme. Or to call a party which seems, at least, to be mainly composed of such men "a respectable party," is clearly a misnomer. We are willing to admit that there are respectable men who honestly hold Native American views. Against these we have nothing to say, for we are the last one to prescribe any man for his views, no matter how much we may be opposed to them. But when a class of turbulent rowdies led on by their equally turbulent leaders strike at the very fundamental principles of that glorious old Constitution, which has been our protection and the admiration of the world for so many years, we cannot nor will not hold our peace.

We do not anticipate any imminent danger from this new party. For there are too many right thinking men in the United States who, although they may be Native American in feeling, and join the Know Nothing party under false representations, but when they see it in its true light, when its rottenness is exposed, they will at once desert it as they would a leper. This actually did occur at the Newark outrage and will occur again. Numbers there were, who joined the procession and wore the badge, who were peaceable law-abiding citizens, (the *o-to-side* cause of the procession being to celebrate the anniversary of the first sitting of Congress,) but becoming disgusted with the actions of those with whom they found themselves they tore the badges from their persons and indignantly left. Again we say, there is not, in our opinion, anything to fear, for a bad cause is not likely to prosper in this free and enlightened country; and yet it is worthy of notice, if it only be to warn good citizens from getting into horribly bad company.

In another column will be seen the card of Drs. I. Westerfield & Son. These gentlemen enjoy a wide-spread and we presume a well-merited reputation in the practice of medicine, and especially in Chronic Diseases.

Mr. John Graves, brought us two very large years of corn last week, which grew upon the farm which he sold his brother, Capt. E. A. Graves, recently. They, at least, do not have the appearance of the approaching famine, so much talked about. They are each about one foot in length, and have twenty rows of plump and heavy grain.

We are greatly indebted to those young gentlemen who gave us the really handsome serenade, on last Monday night. May their course down the untold stream of Time, be as pleasant and happy as we were whilst listening to their dulcet strains with our enraptured ears.

Our old and much respected friend Mr. H. Smith, of Bardonia, is in town. See his advertisement in another column. Mr. S. is perfectly master of his business; As a proof of this assertion reference is made to the numberless new looking tiles which pavenade our streets, upon proud heads. Call and see Mr. Smith, that you may no longer be guilty of the egregious sin of wearing "a shocking bad hat."

Messrs. Knott & Hanning have removed and are now permanently installed in their new and really beautiful store. Give them a call, ladies, if it is only to "look around."

F. G. M. of H., is courteously informed that we are not acquainted with him, and as he has not favored us with his proper name, his piece is inadmissible.

We understand that there was a very heavy rain in the neighborhood of Springfield, on yesterday (Tuesday) evening. The creeks and branches ran in torrents, even sweeping away fencing in places.

We saw a very sensible man driving a team of five oxen through our streets the other day. We never saw him before, nor do we know who he is; but we know him to be a sensible man from the manner in which he had his animals geared. He had discarded the rascally system of yokes, and had his team hitched up in horse style, with bridles, collars, traces, &c. The whole turnout was decidedly unique, and attracted considerable attention on the street. It was quite refreshing to see the cattle move along, with their heads erect, stooping as gracefully as oxen can step, and quite as briskly as some carriage horses we have seen. The owner is probably a "Young American"—he is certainly a merciful and sensible man.—*Abingdon Virginian*.

The above we saw on a scrap of an old exchange, which had been torn into shreds and scattered on the floor. Now, we are of opinion that the idea therein contained is really an excellent one. Cannot some of our enterprising farmers of old Marion, try it out. We cannot conceive of a more cruel thing than the common ox-yoke. It certainly half strangles the animal and gives little or no "purchase." Let us relieve the poor oxen from the old "yoke" of wood on his neck, which has been bearing his head to the earth ever since Father Noah drove his progenitors from the Ark; and replace it by a light and comfortable collar.

The annexed note from James B. Clay, Esq., which we find in the Lexington Observer & Reporter, corrects an unfounded report which has some how or other found its way into the eastern papers:

Mr. Wickliffe—Dear Sir: I am told that a paragraph has been going the rounds of the papers to the effect that Mr. Geo. Law, of New York, had sent an agent to Kentucky to purchase my place, Ashland, and I have had frequent inquiries as to the truth of the statement. I desire through your paper to say, that never having offered Ashland for sale, I presume either Mr. Law, nor any one else would venture to offer me the insult of proposing its purchase.

I am very respectfully,
Your obedient servant,
JAMES B. CLAY.

Ashland, Sept. 12, 1854.
Singular Accident.—Mr. George H. Gooding, a Boston broker, while walking home on Tuesday evening, stepped upon the hammer end of a large adz, on the ground, causing it to fly up, and the edge of the adz struck his leg above the ankle, completely severing the tendon Achilles. After the accident he was unable to stand, and was conveyed to his home. The physician states that the severed cords will never fully reunite, and he must submit to be a cripple for life.

Central America.—We have dates from Costa Rica to August 10th. In that State there was nothing new of importance.

From Nicaragua we learn that the Honorable auxiliaries of Castellan had lost 158 men in an assault on the position of Chamorro, at Granada, the Hondurene General Gomez is also dead, as is reported on an attack of fever.

At San Juan del Sur two small parties of adherents of Camorro had been routed and mostly killed in a skirmish. Castellan had effected a general reduction of 15 per cent in the tariff on foreign imports.

Our files of Central American journals contain nothing to indicate that the civil war in Nicaragua has made any decided progress toward a conclusion in favor of either party.—*Lou Cou.*

The will of the late Dr. Manning, of Ipswich, which some 60,000 was left for a high school in that town, and an annuity to his son and only heir of \$1000 in case he should not marry a blood relation, and \$200 if he did, has been declared invalid.

On last Saturday evening, Gov. Willard addressed the people of Chicago on the Nebraska and Know Nothing questions. Mr. Willard made an admirable speech—so say the papers of that city. The times says that he was constantly interrupted in the most disgraceful manner, by the abolitionists present, but that he kept in good humor, and maintained his position.—*Lou Dem.* Sep 15

OUTRAGEOUS SHOOTING AND BOWIE KNIFE AFFAIR AT LEXINGTON, KY.—We learn from a gentleman from Lexington, last evening, that a most disgraceful and bloody affair occurred at the Fair Grounds in the vicinity of that city yesterday, in which a negro woman, the property of Dr. Lettler, was shot in the mouth. Mr. Thomas Ferguson was literally scalped with a bowie-knife in the hands of Mr. Charles Buford and George H. Thomas. Mr. Sterling was shot in the thigh by Thos. Buford, of woodford.

The origin and particulars of this affair, as we are informed, are as follows: Messrs. G. H. Thomas and Thos. Buford had a regular fist fight in the morning, in which Thomas was worsted. He proceeded to town and returned a little after 12 o'clock, to the fair ground, in the vicinity of the ladies stand, surrounded by five hundred people, where he again encountered his opponent, Buford, and drawing a revolver fired four or six shots, which were returned by Buford with another revolver. In the melee the negro girl was shot in the mouth, the ball passing out at the neck, inflicting a very dangerous wound, and Thomas was shot in the thigh. A second pistol was handed to Thomas, by Thos. Ferguson, when Chas. Buford drew a bowie-knife and fell upon Ferguson, inflicting a terrible gash on his head, and it was thought his eye was cut out.

The shots were fired indiscriminately into the crowd, chiefly women, and it was a miracle that no one else was hit. John J. Crittenden and Gov. Lettler were in close proximity to the bell-entrance, and upon hearing the bullets whistling about their ears concluded the parties were in earnest, and made a hasty retreat from the scene of action. The ladies were terribly alarmed at the outrage perpetrated in their midst, and the utmost consternation prevailed among them for some time. Such scenes of violence are of too common occurrence in Kentucky, and it is to be hoped the authorities of Lexington will make an example of the guilty parties.—*Lou Cou.* Sep 15.

The catnip engine, invented by Captain E. Long, has been finally abandoned, and is to be taken out of the ship bearing his name, steam boilers being substituted. From the beginning, this result has been seen by practical and scientific men, notwithstanding the alleged complete success of the experiment.

DIED.—The Cincinnati Gazette says that the young man Short, who fought a duel with young Peacock a few days since, near Alexandria Ky., and who was shot in the left shoulder died from the effects of the wound on Sunday evening last. Peacock is still at large.

TELEGRAPHIC.

Reported for the Louisville Courier.

ARRIVAL OF THE NIAGRA.

HALIFAX, Sept. 12.

The Niagara arrived this evening. We have Liverpool dates to the 2nd, being two days later than the advices per steamer St. Louis.

Vienna Lloyds has authentic news that Marshall St. Arnaud would leave Constantinople on the 2d of September, and take command of the Crimea expedition, which by that time would have reached its destination.

VIENNA, Sept. 1.—Yesterday Prince Gortschakoff made a confidential communication to the Count Boul, and requested in return similar explanation, he had a communication to make to the Emperor in person.

BERLIN.—Russia will not accept the Austrian invitation to commence negotiations upon the basis stipulated by the Western Powers.

France and England have decided to dismantle and abandon Dumsarsund, which it is said has been offered to Sweden, on condition of her declaring against Russia.

Sweden refuses to accept the offer. On the 20th ult., Admiral Napier and Marshall D'Alliers proceeded to Hango in sight of the Russians, and blew up fortifications there, and then retreated to Abo, where there were 150,000 men garrisoned.

A slight engagement, without loss of life, occurred at Abo on the 12th, between nineteen Russian gun boats and some English steamers.

There are various reports in regard to the long expected expedition to Crimea, but up to August 22st nothing was known of the expedition.

Cholera is still prevalent in Vienna. New York, Sept. 13.—The hospital and Magazines of the Russians being removed to Bess Araben, Gen. Cornovisa has gone to Bucharest to consult Omar Pacha.

There was a fire at Varna, and a half million pounds of bread, equal to two weeks consumption of the English army burned.

Cordons drawn around powder magazine. Great excitement. Supposed Russian incendiary.

Transports continued to arrive at Malta.

The French are beginning to grumble at the long continued inactivity.

The Cholera is abating. Ravages of fleet and army horrible. Many thousands have died.

It is said that Pasha, Viceroy of Egypt intends visiting the Sultan. Pasha is a skillful Diplomatist, and was sent to the principality as a Turkish Commissioner. Riga Pasha is intriguing to have Omar Pasha transferred to command the army of Asia. The Sultan refuses Asia.

The disisters to the Turks are confirmed. On the 20th of July Selim Pasha was defeated and the Russians occupied Bapaziel on the 17th of August.

A general engagement took place near Kois. The Turks attacked the Russians and entrenched the camp at Yoonoklerka; also drove in the right wing of the Russian army, but a general charge of Russian cavalry swept them back, with the immense loss of 4,000 Turks killed.

The Turks retreated into Kairs, and abandoned their camp, which the Russians occupied.

The Russians admit their loss to be nearly one thousand.

The battle lasted five hours. Forty thousand men, and one hundred and twenty guns were engaged.

Great excitement was caused by the announcement of the French commander, that as Pireaus was unhealthy, he will remove to Athens.

The Delay granted by the Porte to Greece, and adjourned of difficulties with the Turks, expired on the 1st of September.

No arrangements for negotiations are pending.

VIENNA, 1st.—New proposals were made by Russia, which involve new negotiations. Particulars not transpired.

BRITAIN.—The weather is extremely favorable.

Lar e proposition of the crops secured, notwithstanding pronounced tranquility. Private advices report outbreaks in Madrid on the 28th. When it became known that Christiana had escaped, a few barricades were erected, but was pulled down by the national guards the first opportunity.

The entry of some regiments of cavalry prevented much mischief.

S. rigosa restless.

The whole province of Anagon is unequal movements spoken of in one or two quarters—hints of military disaffection, &c.

GALLACHIA, ITALY.—Cholera abating. Pomagna and Duehess are in a disturbed state. Seven more men were sentenced to death.

PARMA.—A universal Jubilee long contemplated by the Pope, will be held in November next.

SEIX.—The Union Republican Club closed by order of the Government. The National guards were ordered to arrest the members if they persisted in assembling. Several smaller clubs also dispersed.

Madrid profoundly tranquil. The Government has published defalcations of previous Ministry—total thirty millions of dollars, with the revenue of Cuba mortgaged for two years, and all extraneous resources of the Kingdom pledged. Rappero raised a temporary loan of two millions of dollars on Havana customs and bank security. A decree confiscating the property of Christiana, was had.

She left Madrid for Portugal with the sanction of the government. Her wants safely invested in foreign securities.

FRANCE.—The Emperor returned to Paris and left the camp of Boulogne.

Prince Albert and the King of Belgium are on a visit to the Emperor.

Sweden and Denmark are on the point of signing a treaty of alliance with the Western Powers very doubtful.

Gen. Paix, inventor of the Paixan gun is dead.

Belgium's resignation of the Ministry had not been accepted. The cause is unknown.

Omer Pasha is superseded by Mustappa Pasha, who distinguished himself in Bo-Burdsha.

WILL HEAR OF SOMETHING ADVANTAGEOUS.—If Mrs. Susannah Hedges, whose maiden name was Shephard, will communicate her whereabouts to the editor of the Kentucky State Flag, Paris, Ky., she will hear of something greatly to her advantage.

PUTTING ON AIRS.—The Harrodsburg Ploughboy is pretty severe upon an Indiana Free-banking company for attempting to sail under Kentucky colors. It appears our "free banking" neighbors have a note which is issued by a concern called the "Kentucky Stock Bank," and that the words Kentucky and Bank are printed in large, showy letters, while the word Stock is in letters so small as to be almost imperceptible. Indiana is also printed very small letters, and is placed on the edge of the note, where one would not be apt to look for it. This is evidently designed to deceive the unsuspecting into the belief that it is Kentucky money, all the banking institutions in this State being sound and in good repute. It was made payable at Peru, Indiana.

THE RAIN IN THE EAST.—The telegraph reports heavy rains in Albany, New York, Philadelphia, Baltimore and Washington, on Saturday and Sunday last. In Philadelphia, the storm was particularly furious, uprooting trees, making shreds of the awnings, and shattering many panes of glass; and the grateful rain poured down in a deluge. On Saturday at the same place, the thermometer stood at 92, and on Sunday it had fallen to 60.—*Lou Dem.* Sep 15

The brewers of this city have established a material advance in Beer, Porter and Ale, on account of the scarcity of barley.—*Lou Dem.*

SICKNESS IN GARARD.—We understand that the flux is prevailing to a great extent and with considerable fatality, in the neighborhood of the "Fork Meeting-house" in Garard county. A number of persons had died at last accounts and the disease was not abating. The sickness is thought, we believe, to be caused in a great measure by the scarcity of water and the inferior article which the people are consequently compelled to use. The town of Lancaster, we learn continues healthy.—*Lou Dem.*

Quite a number of persons have very suddenly died within a few days, at Baltimore, from eating crabs and other fish caught in the harbor. At this season of the year; the water of the bay, in front of that city, is little better than a stagnant pool of corruption; and the fish are consequently unhealthy, if not poisonous. Oyster eaters will bear this in mind.

PROBABLE MURDER.—We learn that the body of Chas Banks was found near Shepherdsville, in Bullet county, last Monday morning, in an out of the way place, with his skull fractured. Suspicions of foul play were entertained against William Stubbs, who was known to have a difficulty the day previous, and he was arrested and lodged in jail to await examination for murder.—*Lou Cou.*

—There is to be a baby convention at Springfield, Clark county, Ohio, on the 5th of October. A committee of seven have charge of the arrangements, which will be unexceptionable. Silver plate to the value of \$500 will be awarded to the three most promising children, not exceeding one, two, and three years of age.—*Lou Dem.*

The magnificent quilt which took the premium at the Eminence Fair last year, and which was subsequently raffled off in this city for \$200, has been purchased by the managers of the Fireman's Fair, at the Odd Fellow's Hall, and will be exhibited to night and every night during the week. At the close of the Fair the quilt will be raffled off, at \$5 a chance; the number of chances to be limited to twenty.—*Lou Dem.*

It is thought that the heat and prolonged drought of the summer may have accomplished much in destroying the insects and animalcules, which in late years have so greatly increased in some places as to render their existence a public calamity. A Virginia paper says that an examination of the distorted joints of wheat straw, reveals the "joint worm" in almost every instance, dead and dried to powder.

ALL GONE.—All the family of the late Gen. Taylor, who occupied the White House, are dead—the noble Gen. himself, his wife, his daughter, Mrs. Bliss and Col. Bliss. Mrs. Fillmore and daughter are also dead.

A little girl named Harriet Broseca, was buried in Cincinnati, on Wednesday, in a most shocking manner, under the following circumstances. She was sent by her mother to light the fire, when in order to facilitate the process, she took a can containing camphene and poured some of the liquid on the fire. The flame communicated to the can, which exploded. The child's clothes caught fire, and before assistance came she was burned in so shocking a manner that she was not expected to survive through the day.

HATS REPAIRED!

Old Hats which have caved in or faded, re-stiffened and made to appear as new. DESIRING to remain in Lebanon a few weeks, I have the method of informing the citizens of Merion county, generally; that I am prepared to renew and re-finish Hats which have been abused either by wear or accident, in such a manner as to make them appear nearly new and last as long as they have already been worn. I have all the necessary blocks and other tools with me for the business. Having been working at the Hattin'g business for thirty-five years in all its branches, I feel confident of giving entire satisfaction, or no charge will be made. H. SMITH, of Bardonia. Sept 20 2t.

Drs. I. Westerfield, & Son

HAVING permanently located in Shelbyville, Ky., tender their professional services to the afflicted. They will give special attention to the treatment of

CHRONIC DISEASES.

The senior partner has been exclusively engaged in the practice of medicine for the last 25 years. In addition to a regular course of study, he read and practiced three years in partnership with the

Indian Doctor Richard Carter.

Formerly of Shelby county, Ky., from whom he obtained all those valuable RECIPES and formulas, for the preparation of his *remedies*, which have proven so eminently successful in the treatment of

Chronic Diseases.

In all cases of simple, uncomplicated diseases where a carefully written description is sent them, post-paid, they will promptly send medicines and directions by mail. sep 20 2t
